

Words to Each Other

At first, took these words to be product of psychic trauma. Soon took them from others to put together wrong. But why No personal pronouns? Now take them from toll calls, score charts and other countries, but still their lack of sense. Syntax is why? Thought there might be a tree here. Thorough disorder not the result, but some thing like it. Find out. Go there.

This part is so ripe. They say words to each other. They heard it so they must talk / be talking about it. Claims as it. Word me cruel with. Does

nothing syntax is a wrong. Word me / go there. Does nothing?
